

**California Regional Water Quality Control Board-Los Angeles Region**  
**Contracts and Grants Program**

**Project Summary: 04-098-554**

<b>Project Number:</b>	04-098-554	<b>Project Status:</b>	Active	<b>Grant Manager:</b>	C Urrunaga
<b>Project Name:</b>	Ballona Creek Stormwater Trash Capture System	<b>Project on Schedule:</b>	No		

#### Project Details

<b>Watershed:</b>	Ballona Creek	<b>Project Description:</b>	Construction of a hydrodynamic unit to capture trash and debris.
<b>Problem Statement:</b>	Install a variety of trash capture system units to treat wet-weather runoff and reduce significantly the trash deposition into the Ballona Creek Channel.	<b>Outcomes:</b>	They will help reduce trash from wet and dry run offs by placing 3 capture systems at 3 storm drains near Ballona Creek. They will measure the efficiency of the units during the first rain season after construction. Help protect the environmental in the Ballona Creek watershed and protects relatively close water bodies from trash. Reduce trash loads to adjacent receiving water to the Ballona Creek and Santa Monica Bay which will result in more aesthetic, improved interface between transportation system and the adjacent community. Enhance efforts underway in the community to increase the quality of experiences along the Ballona Creek channel, as well as improve recreational experiences at the beach and the ocean.

#### Contract

<b>Execution Date:</b>	11/15/04	<b>End Date:</b>	6/29/30
